

Appl. No. 10/069,536  
Amendment dated August 4, 2003  
Reply to Office Action of May 30, 2003

**IN THE SPECIFICATION:**

Please replace the Abstract with the following amended paragraph:

“An amplifier circuit is disclosed which receives signals that cause the amplifier to be configured in an asymmetrical mode or symmetrical mode, so that performance may be optimized in each mode.”
